Religious Exploration

Story for all Ages.

The Fellowship has three themes that guide curriculum choices for all age levels in its religious exploration program.

Curriculum and programs are selected to allow

exploration within these themes:

- **UU Identity:** focuses on the history, people and principles of Unitarian Universalism.
- **Sources and Traditions:** explores world religions and philosophies, with special emphasis on the Judeo-Christian heritage which are the roots of Unitarian Universalism.
- **Principles in Action:** allows individuals to put into action the morals and ethics that reflect UU principles and develop their personal faith statement.

In addition, each year children and youth classes develop a social action or environmental stewardship project to work on during the year.

Children and Youth RE

Sunday Morning Classes

- **Grades 1st through 4th**
Classes run during the Sunday morning service hour, 10 – 11 AM. Children participate in the service until the completion of the Story For All Ages, at which time the teacher accompanies children to their classroom.

Childcare is available for children birth through kindergarten. Children can be dropped off in the childcare room before the start of the service.

Youth in grades 5th and above, attend the service.

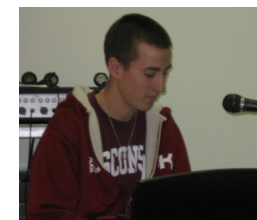

Wednesday Evening Program

The program starts with dinner from 5:30 – 6:30 PM. All members and friends are welcome to participate in the dinner. Registration and a financial donation is appreciated for the dinner. Classes for both youth and adults start at the close of dinner.

- **Grades 5th - 10th**
Classes for youth in 5th through 10th grades are a mixture of UUA

curriculum, fun special events, current event discussions and service projects. Older students are welcome to participate in these activities or classes. Intergenerational classes will occur when appropriate.

- **Grades 11th and 12th**
Students have the option to participate in a Coming of Age, mentoring program. Designed to help students articulate their religious beliefs and design an extensive social action or environmental stewardship project. Mentors and students determine how often and when they will meet. The program cumulates with each student presenting their belief statements at a service.

Sharing music with friends.
